Art Unit: 2812

Continuation of 3. NOTE: The amendment would require further search and or consideration. The examiner notes that the added limitation of "wherein the oxidizing step results in formation of a bird's beak in an edge of the gate polysilicon" has never been considered in combination with the limitations of claim 16.

Continuation of 13. Other: As per item 10, the status of the claims are listed above under item 7. The examiner notes that during the oxidation of Doyle et al. in combination with Bai et al. that a bird's beak would inherently form (ie oxidation of polysilicon gate with silicon nitride spacers).
